Thank you, reader, for your ongoing support. We' ve read more than 500 bookmarks and 30 dispatches together over 2024. We need strong analysis of the political landscape shaping our very thought, and your participation in this space contributes to that necessary thinking. Greatly look forward to continuing the radical dissemination project here across 2025 with you. Here' s to another year of anti-capitalist thought! Perhaps this will be the year of revolution.
